

COVID UPDATE 2022-05-03 RE: Spring Surge

May 3, 2022

Dear Harmony Families,

Due to rising case numbers in Sonoma County, Harmony USD anticipates surpassing the 20/100k threshold that would shift our indoor masking from “strongly recommended” to “required”. If we pass the threshold, we will institute required indoor masking for the following week and will reassess at the end of each subsequent week to confirm our drop below the threshold. We expect this late spring surge to have a much lower peak in case count compared to the December/January surge. We are unsure if we will exceed the threshold for only one week or for multiple weeks. We will update families regularly as the surge progresses and eventually passes.

For your reference, the adopted COVID protocols are posted on our website at the following link:
